1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims

Claim 10, line 6: the term "said plurality of cathode electrodes" is deleted.

The Examiner amends the claim by informal amendment since it is a self-evident typographical error. The term "said plurality of cathode electrodes" is recited twice at lines 5 and 6. Applicant's response is not deemed necessary in response to this informal amendment.

2. The following is an examiner's statement of reasons for allowance: withdrawal of (1) objection to the drawings in view of applicant's submission of proposed drawings corrections which are approved by the Examiner; (2) minor objection to the disclosure and claims 3, 4, 6 and 9 in view of appropriate amendment of the disclosure and cancellation of claims 3, 4, 6 and 9; (3) prior art rejection of former claims 1-9 in view of their cancellation.

Newly submitted claims 10-11 are allowed since prior art of the record does not disclose or teach, taken alone or in

combination, applicant's claimed field emission display including all of: a cathode plate; a substrate; a plurality of cathode electrodes; a plurality of electron emitters; a plurality of dielectric strips; a plurality of gate electrodes; and an anode plate, as specifically recited in independent claim 10.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ashok Patel whose telephone number is 571-272-2456. The examiner can normally be reached on Monday-Thursday.
